SOFTWARE VERSION 2.2

The new Zipwake Series S Software Version 2.2 incorporates improvements to the system's dynamic craft modeling, including e.g. better treatment of catamarans.

Various small enhancements have also been made to further perfect the system. The input/output via the system's USB ports has been enhanced to simplify future upgrade. It is recommended to upgrade all systems using an old version.

This new software version 2.2 is implemented in the production from March 14.

SYSTEM UPGRADE

Download the latest software upgrade file from www.zipwake.com and copy it to the root of a high quality USB memory stick. Then refer to the Operator's Manual Section 15 and follow the remaining steps.
